THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

New York Life Insurance Company,
CASH CAPITAL OVER $1,900,000

all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

DAILY GAZETTE.

War on the Mississippi.

[Special correspondence of the Chicago Times.]

ISLAND NO. TEN, April 1.

We have authentic information of the success of the expedition across the overflowed country in aid of Gen. Pope. The matter is no secret in any quarter, and there is not a shadow of reason for denying it to the newspapers. The rebels are as well informed in regard to it as we are. The country is inhabited by secession sympathizers, who lose no time in communicating our movements to the enemy, and their spies are ranging through the country all the time. They know perfectly well that we have been trying to get aid to Gen. Pope, and they have doubtless taken all available precautions to prevent it. They are in possession of the banks of the river all the way down to New Madrid, and far below, and we cannot doubt that they will use such plain facilities as are offered them for planting batteries to oppose our progress; so we may count with reasonable certainty upon being obliged to run the gauntlet of their batteries, after our people have got through the woods, and within sight of New Madrid. Even though successful in this venture, and by the means placing Gen. Pope in possession of facilities for crossing the river, we have then to contend with the batteries, which the enemy will maintain at all hazards, and use against the boats to the best of his ability. If he can be overcome and silenced by our batteries on the other side, then the scheme will be successful; but it must be remembered that, with everything at stake, and the best of ground to maintain himself upon, the enemy is not going to be easily overcome or silenced. We are informed, and doubtless correctly, that the rebel gunboats are in a position to bear upon the same point. All of these means will be employed to prevent Gen. Pope from crossing the river, and, until he is able to overpower them, we are not likely to be favored with active operations here.

The mortar boats keep up their intermittent discharges. We hear, every half hour, the explosion, followed by the distant sound of the bursting shell, but no answer is returned. I argue from this that we are not doing them much damage. If our immense missiles were doing anything except uprooting trees and boring holes in the ground, we should hear from them in return. It is not in human nature to stand still and be cut up as these ordnance are capable of cutting up flesh and blood when it comes within their range. The natural inference is that we do not hit anybody to speak of, notwithstanding the extensive use of powder and iron which has prevailed during the past week or two.

The rebels have been very busy during the past few days, and the results of their labor are visible in the bend of the river, immediately in front of our gunboats and mortar flotilla. They have thrown up an embankment at least half a mile long, and as high as a man's head. Behind this they have encampments in considerable numbers, and no doubt heavy batteries. Their encampments are largely increased in numbers, and the opinion that they have received reinforcements is very generally credited. The fact that their camps are located in the position they occupy, in the very front of their fleet, seems to imply a doubt as to our ability to reach them. Their batteries are strong, and are mounted with heavy guns. They expect to disable our gunboats the moment they come within shot range, and, if they have metal enough they will probably be able to do do. The eight-inch and ten inch solid shot go through them without difficulty, and, having learned this fact at Fort Donelson, they will profit by it. We are, therefore, greatly dependent on the mortars, which, when they strike in the right place, are irresistible. We have had no evidences yet that they are hitting the spot sufficiently often to do much execution. It is a very difficult matter to direct them accurately. They have no similarity to cannon. They point upward and throw their shell hundreds of feet into the air, whence they drop into the ground; and to so fix the piece that the shell will drop into the right place is the difficulty. In bombarding a fort there is little difficulty, as striking anywhere within the inclosure they do damage, but to throw them into the small space occupied by a single battery is a matter of chance. The well-aimed cannon do not strike so small a point with certainty, from which it may be inferred that the chances of hitting with the mortars are not very great.

They have also greatly strengthened their defences on the river bank below the island. The course of the river is such that they have about 20 miles of shore, all within an average distance of seven or eight miles of their main fortifications. They are thus enabled to concentrate a force anywhere on the shore line, from No. 10 to Point Pleasant, in a very short time. They have erected batteries along the shore, and have the aid of their gunboats. They have had time for reinforcements and for fortifying, and it is their own fault if they are not as they desire to be. It may thus be seen what the federal army is called upon to accomplish. It will be no easy task, no blood less victory; neither will the reduction of the place be an event of speedy occurrence. We must wait, and persevere, and have faith in the invincibility of our cause. The rebel stronghold will yet be ours.

The success of our soldiers at Union City is received with joy, and has produced an exhilerating effect. The boats came down with a grand display and a military flourish worthy of the occasion, and the victorious troops met a hearty welcome.

The subjoined table, compiled from the census of 1860, is interesting at this time. It will be seen that the free negro population of the south is considerably in excess of the north:

No. 2, Standard Shuttle Machine, formerly sold at $100,

Singer's Letter A Machine,

IS the best Machine in the world for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

In Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal* and *finished to perfection.* We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money* with *less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors*. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued with at [illegible], and farm risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty*. All losses promptly adjusted and paid.

DAILY GAZETTE.

War on the Mississippi.

[Special correspondence of the Chicago Times.]

ISLAND No. TEN, April 1.

We have authentic information of the success of the expedition across the overflowed country in aid of Gen. Pope. The matter is no secret in any quarter, and there is not a shadow of reason for denying it to the newspapers. The rebels are as well informed in regard to it as we are. The country is inhabited by secession sympathizers, who lose no time in communicating our movements to the enemy, and their spies are ranging through the country all the time. They know perfectly well that we have been trying to get aid to Gen. Pope, and they have doubtless taken all available precautions to prevent it. They are in possession of the banks of the river all the way down to New Madrid, and far below, and we cannot doubt that they will use such plain facilities as are offered them for planting batteries to oppose our progress; so we may count with reasonable certainty upon being obliged to run the gauntlet of their batteries, after our people have got through the woods, and within sight of New Madrid. Even though successful in this venture, and by the means placing Gen. Pope in possession of facilities for crossing the river, we have then to contend with the batteries, which the enemy will maintain at all hazards, and use against the boats to the best of his ability. If he can be overcome and silenced by our batteries on the other side, then the scheme will be successful; but it must be remembered that, with everything at stake, and the best of ground to maintain himself upon, the enemy is not going to be easily overcome or silenced. We are informed, and doubtless correctly, that the rebel gun boats are in a position to bear upon the same point. All of these means will be employed to prevent Gen. Pope from crossing the river, and, until he is able to overpower them, we are not likely to be favored with active operations here.

The mortar boats keep up their intermittent discharges. We hear, every half hour, the explosion, followed by the distant sound of the bursting shell, but no answer is returned. I argue from this that we are not doing them much damage. If our immense missiles were doing anything except uprooting trees and boring holes in the ground, we should hear from them in return. It is not in human nature to stand still and be cut up as these ordnance are capable of cutting up flesh and blood when it comes within their range. The natural inference is that we do not hit anybody to speak of, notwithstanding the extensive use of powder and iron which has prevailed during the past week or two.

The rebels have been very busy during the past few days, and the results of their labor are visible in the bend of the river, immediately in front of our gunboats and mortar flotilla. They have thrown up an embankment at least half a mile long, and as high as a man's head. Behind this they have encampments in considerable numbers, and no doubt heavy batteries. Their encampments are largely increased in numbers, and the opinion that they have received reinforcements is very generally credited. The fact that their camps are located in the position they occupy, in the very front of their fleet, seems to imply a doubt as to our ability to reach them. Their batteries are strong, and are mounted with heavy guns. They expect to disable our gunboats the moment they come within shot range, and, if they have metal enough, they will probably be able to do do. The eight-inch and ten inch solid shot go through them without difficulty, and, having learned this fact at Fort Donelson, they will profit by it. We are, therefore, greatly dependent on the mortars, which, when they strike in the right place, are irresistible. We have had no evidences yet that they are hitting the spot sufficiently often to do much execution. It is a very difficult matter to direct them accurately. They have no similarity to cannon. They point upward and throw their shell hundreds of feet into the air, whence they drop into the ground; and to so fix the piece that the shell will drop into the right place is the difficulty. In bombarding a fort there is little difficulty, as striking anywhere within the inclosure they do damage, but to throw them into the small space occupied by a single battery is a matter of chance. The well-aimed cannon do not strike so small a point with certainty, from which it may be inferred that the chances of hitting with the mortars are not very great.

They have also greatly strengthened their defences on the river bank below the island. The course of the river is such that they have about 20 miles of shore, all within an average distance of seven or eight miles of their main fortifications. They are thus enabled to concentrate a force anywhere on the shore line, from No. 10 to Point Pleasant, in a very short time. They have erected batteries along the shore, and have the aid of their gunboats. They have had time for reinforcements and for fortifying, and it is their own fault if they are not as they desire to be. It may thus be seen what the federal army is called upon to accomplish. It will be no easy task, no bloodless victory; neither will the reduction of the place be an event of speedy occurrence. We must wait, and persevere, and have faith in the invincibility of our cause. The rebel stronghold will yet be ours.

The success of our soldiers at Union City is received with joy, and has produced an exhilerating effect. The boats came down with a grand display and a military flourish worthy of the occasion, and the victorious troops met a hearty welcome.

The subjoined table, compiled from the census of 1860, is interesting at this time. It will be seen that the free negro population of the south is considerably in excess of the north:

GREAT REDUCTION

SINGER & CO.'S
STANDARD MACHINES,

Well known to be the best for

Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at $90,

Reduced to $70.

No. 2, Standard Shuttle Machine, formerly sold at $100,

Reduced to $75.

Singer's Letter A Machine,

IS the best Machine in the world for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal* and *finished to perfection*. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money* with *less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

Probable Abandonment of Virginia by the Rebels.

The people in the vicinity of Stafford Court House, in Virginia, just back of the mouth of Acquia creek, informed General Sickles, while on his recent reconnoisance, that the rebel army was falling back on Richmond, and that the confederate government was about to abandon Virginia. We do not doubt that they have done it already, and that the rebel army is also going beyond Richmond to the southwest.—They find that they cannot count very largely upon the inactivity of the federal army, and having eaten up or destroyed everything available in Virginia, they are about to leave that territory to its fate. This result might just as well been achieved, last fall, as now, with proper energy on the part of the commander of our army of the Potomac. We shall soon hear of Jeff. Davis at Montgomery again, waiting for hot weather to decimate our army.

The Expedition to New Mexico.

The order to send several thousand troops to New Mexico, will strike most persons as a singular proceeding. The troops cannot possibly fit out and get there in two months, and by that time the fate of that territory will be decided, by the total defeat of one of the contending parties. If our forces there shall be successful, reinforcements will not be needed, but if they are defeated and captured, it would seem to be better policy to let matters there remain in that situation, until the strength of the rebellion is broken at points nearer home. The expense of keeping a large force in New Mexico will be enormous, as is proved by the cost of the Utah expedition. Supplies must be hauled over 600 miles by guarded caravans. We question whether, when the secretary of war counts the expense of this expedition, he will approve of it.

Abolition in the District.

The bill to abolish slavery in the District of Columbia, has passed the senate. This is a mark of progress in the right direction, and thousands will rejoice that slavery is in a fair way to be driven from the national capital. We hope the house will pass the bill without delay.

According to the report of the proceedings on the passage of the bill, Mr. Doolittle against the it. We trust this is an error, and shall be most happy to make the correction if it shall turn out to be so.

☞ One of Marshal Lamon's aids took fugitive slave out of a New York artillery camp on the 3d, and returned him to his master. It is said there have been other cases of similar iniquity.

The President's emancipation resolution passed the Senate Thursday, by a vote of 32 yeas and 10 nays. Among the affirmative votes was Garrett Davis of Kentucky.

Snow has lately fallen in Rome, and though it lasted only an hour the schools were let out to allow the scholars to enjoy the rare treat. In the country and on the mountains round Rome it has fallen abundantly, and from the top of the Quirinal all the heights and plains around appear of dazzling whiteness.

A Nigger Catching General.—The Nashville Patriot says that whenever fugitives come into Gen. McCook's lines, they are secured, and a record made of their names and the names of the owners. "All the owner has to do is to apply either in person or through an agent, examine the record, or look at the slaves, and if he finds any that belong to him, take them away." This is nice business for one of our generals. It appears that he keeps a slave pen, doubtless with a guard of soldiers, in which are incarcerated any loyal colored man who may come into his lines to give him information of the enemy. If an unscrupulous "nigger thief" comes along and claims a slave, he has his pick out of Gen. McCook's barracoon. The Patriot says it gives it "great pleasure" to make this statement. No doubt of it, and there is just as little doubt that the federal power in Tennessee is a stronger protector of slavery than the rebel army; the latter, according to Parson Brownlow, having stolen more slaves during the rebellion, than all the abolitionists during the existence of the government.

☞ Rev. Geo. Jordon, president of Iberia College, Ohio, imprisoned for resistance to the execution of the fugitive slave law, has received a free pardon from the president, on grounds that the evidence don't show that he actually participated in the resistance, and that he has already suffered enough.

☞ Carl Schurz is to have command of a division in Gen. Fremont's Department. His command will be principally German. Gen. Blenker, with his division, has also been assigned to Gen. Fremont.

Serious rumors are afloat at Washington affecting Secretary Smith and the Commissioners of Patents and Pensions, Smith's son, and Clark, a brother-in-law, his financial superintendent.

From the Third Cavalry.

Third Wis. Cavalry, Benton Barracks,
St. Louis, April 1, 1862.

Messrs. Editors:—Having promised several of my friends to give them an account of our progress from time to time, and as your paper is extensively read by them, I address them through your columns, (with your permission of course,) from this point.

You have already received the sad intelligence of our disaster on the railroad, in which eleven of our number were precipitately borne from our ranks to the world of spirits, and others seriously wounded, but you can form but a faint idea of the scene from any mere pen picture of it. While full of buoyancy and hope, in the expectation of a safe and agreeable entrance into our quarters—some whiling away the hours in social chat, and others yielding to the sweet influence of meditation, with now and then a sigh for home, perhaps—suddenly a crash was felt, and instantly the cars came to a stop in the most terrific smash up I ever saw. One of them was literally splintered, and the only wonder is, that instead of eleven, one hundred and fifty were not killed.

It was midnight, and dark and lonely was the spot for such a catastrophe. Added to the terror of the accident, was the expectation that the second train, in the rear of us, would be without signal in time to prevent rushing into the wreck, whilst many were imprisoned by the jammed condition of the cars, and despite all the efforts of our remarkably cool and self-controlled officers, who made every exertion to keep the men quiet, several rushed to the windows and leaped from them into the snow and water, fortunately without serious consequences.

As soon as possible, the officers with feelings of humanity, for which, thank God, they are all richly endowed, obtained lights and proceeded to remove the dead and injured victims.

Our gallant and beloved Col. Barstow, and Lieut. Col. White, were on the spot, and by their calm judgment, preserved the best of order during the painful duties that devolved upon the affrighted and afflicted soldiers; with a bosom swelling with the emotions of a generous and sympathizing nature, the colonel stood by the side of the lifeless forms of his men, with marks of feeling which showed to the observing eye, that the brave officer may carry as tender and sensitive a heart towards his men as the fondest father bears for the children of his care. And what is true in this respect of the colonel, is also true in relation to all his well selected staff and other officers.

Every thing was done for the suffering that could have been done, as well by the wise direction of movements of those present, as in sending to Chicago for aid. And in as brief a period of time as possible, cars were brought in from the city, and the regiment proceeded on, in good order.

By the accident, we were detained in Chicago for several hours, during which time every attention needed, was bestowed upon the comfort of the regiment by those in command, and we were brought on thence forward in safety, arriving at St. Louis in the morning of Thursday. From thence, we marched through the city on foot to the barracks, amid the incessant cheers and welcome of thousands. From every window and balcony, were seen the waving of white handkerchiefs, in the hands of smiling ladies and gentlemen. From every window of one large and elegant mansion peered the face of young ladies, whose sweet voices were heard above the tramp of the passing regiment, while they sang the "Star Spangled Banner" with a feeling of heartiness that beamed from every eye. If there are any secessionists in the city, they are not to be found in that galaxy of the daughters of Missouri.

We are now all comfortably settled in our quarters, and generally in the best condition of health, although the contrast, in the atmosphere is very great, from cold snow banks to green foliage and balmy air.

Our quarters are in a portion of the elegant and capacious fair grounds. It is a charming location in the midst of a delightful grove, and commands a fine view of the surrounding rural scenes. With any reasonable degree of attention to the laws of health by our men, we shall enjoy ourselves finely.

On Sunday morning, the 3d and 2d regiments were marched into the spacious area of the grounds and listened to an eloquent and appropriate discourse from our Chaplain, Rev. Dr. Beers. It was an imposing scene, to behold over two thousand soldiers, respectfully listening to the words of truth and love, while their forms were clad in the vestments of war.

To day, our Regiment was called out for review, by General Strong and Gov. Harvey, who highly complimented the Colonel for his success in getting up his regiment. In fact, it is, unquestionably one of the best regiments in the state, and when properly drilled as we soon shall be we hope to add brighter laurels still, to our already enviable name in the army of the Union. If experienced officers and ambitious men can win fame, I believe it will be ours.

The 16th Regiment of Iowa Infantry, left the barracks to-day for Tennessee.—Another regiment left on last Saturday. But, their place will be supplied by the 18th Wisconsin, and others coming in.

We still have regiments—here, and all in unusually good health and in fine spirits. In fact, we are all most happily disappointed with the condition in which we find the army here, notwithstanding the the favorable accounts we have had of the superior abilities of the popular general in command of the divison.

That there are a few lurking demons outside of our quarters, who would immolate their preservers, if possible, is evident from the fact that, some miscreant sold poisoned fruits with fatal results to some two or three of our outer guards, yesterday. The first intimation we had of the fact, was a friendly hint to us by our thoughtful and sympathising Captain Justin, that we had better not buy any more of their "luxuries."

It is not an uncommon occurence to hear of a picket being shot, so that we are satisfied that the diabolical spirit of the prime ministers of treason and rebellion against the Union is not exorcised yet, even by the fraternal care which has been shown toward the citizens of the rebellious states in every step taken towards its suppression by the government. But our confidence is every day increased in the prospect of a complete reversion of the views and feelings of the most disloyal citizens of the revolted states, as they shall learn that the army of the Union is friendly to, and not inimical to the welfare of the people, North or South.

For any imperfections in this hastily written letter, please find apology in the fact that we are writing on a small box, sitting on the bosom of the mother earth, and in the midst very of active camp duties—accommodations furnished in the unfurnished tent of your friend Sergt. Major Gillett. In my next I will endeavor to give a few more general and interesting details. Till then, AU REVOIR.

Fourteen thousand barrels of flour, and 12,000 bushels of grain, have come in by the Chesapeake and Ohio canal since the opening.

The steamer Coeur de Leon arrived here last night from the lower Potomac and reports that visits to over 100 families disclosed a strong Union sentiment in Westmoreland county, Virginia. It was also ascertained that much dissatisfaction exists among the rebels, and that many of them would gladly make their escape. Fort Lowry, on the Rappahannock, mounting 12 guns, is represented as having been abandoned, and the river up to the town of Rappanannock, which is 40 miles from its mouth, is clear of armed rebels in force. A boat's crew from the Coeur de Leon recently burned the rebel schooner Union, in Cuchcomico Creek, not having been able to float her out.

Tribune's special.—Wm. H. Russell, of the London Times, has engaged passage to England in the next steamer.

Times' special.—The committee on the conduct of the war have examined several witnesses, bearing upon the charge of atrocities by the rebels on the wounded soldiers at the battle of Bull Run, and the evidence is a disgraceful record against the chivalrous southerners.

The house committee on printing introduced a resolution, to day, providing for the printing of 100,000 extra copies of the final report of the commissioners on war claims at St Louis.

It is asserted in official circles that Brigadier General Rosecranz is to be promoted to Major General.

Washington, April 4.

The Times' correspondent telegraphs, to-night, from Budd's Ferry as follows:

Hooker's Division, Thursday, April 3.

A corpse of picket men belonging to the Excelsior brigade, left Liverpool Point, under the command of Gen. Sickles, early on Monday morning for Stafford court house, on a reconnoisance. The troops landed at Shipping Point batteries and marched from thence past Dumfries, through Acquia to Stafford court house,

There was skirmishing between a body of 600 rebel cavalry and the advanced corps of Sickles' command, six miles this side of Stafford, and firing on both sides was continued until we reached that place. The rebels in their retreat set fire to the town, and all the stores. Our forces promptly stopped the conflagration. A number of prisoners, horses, stores, &c., fell into our hands.

From Brooks' Station, a force of 1200 rebel infantry and a battery of six field pieces were moving up to support their cavalry.

After remaining three hours in Stafford, camp fires were built on the hills to deceive the rebels, while our forces withdrew from the place. General Sickles with part of his corps, arrived back at Shipping point this morning. The rest came in at Brent's Ferry, opposite Liverpool point.

Our casualties were two wounded and a few missing. The corps marched 48 miles in 15 hours, over the worst mountain roads.

At Fredericksburg there are a few troops. They are falling back to Richmond. The citizens state that the confederate government intend to abandon Virginia.

New York, April 5.

The billiard match between Foley and Derry was won by Foley by 498 points in a game of 1,500.

Times dispatch—The grand jury of the District of Columbia has found two bills of indictment against Horace Greeley for an attack made upon the marshal of the district in the columns of the New York Tribune.

Washington, April 4.

A military hospital has been ordered to be established at New Albany, Indiana, and Jefferson Barracks, near St. Louis, have been converted into a military hospital.

The secretary of war [redacted] communicated to congress his opinion that the present organization of the medical bureau is inadequate to the service. He has authorized the surgeon general of New York, under direction of the governor, to organize volunteer surgeons to render medical aid when requested. A similar organization has been made by the governor of Pennsylvania, and valuable service has been rendered.

Cincinnati, April 5.

The public reception of Parson Brownlow at Pike's opera house last night was an immense affair. Every available spot in the house was occupied. Mr. Brownlow was introduced to the audience by Joseph C. Butler, president of the chamber of commerce, in a few appropriate remarks. Mr. Brownlow spoke, relating his experience, the operations of the rebellion in East Tennessee, and the sufferings of himself and of the Union men while imprisoned in Knoxville, was listened to with profound attention. Speeches were also made by Generals F. Carrs, and Lieut. Gov. Fisk, of Kentucky. Resolutions were adopted demanding a vigorous and unceasing prosecution of the war and punishment of leading traitors, resolving that the flag of the Union shall again float triumphantly over the walls of Sumter, and from every other fort belong to the Union; that our warmest sympathies are with our distinguished guest, and calling upon the government to afford speedy relief to the loyal Union men of the south, especially those of East Tennessee. The exercises were closed by singing "Hail Columbia" by a large number of children from the public schools of the city, who were seated on the stage.

Afternoon Despatches.

Washington, April 5.

Complaints having been made by the commanders of military posts, that movements are impeded and discipline relaxed by the presence of male and female visitors, the secretary of war has ordered that no passes be granted to visit Fortress Monroe or other military posts, and has authorized commanders of military posts to remove all persons not engaged in the service. Passes for the purpose of trade and business are also refused.

The arrival here of Lord Edward Cavandish, son of the late Duke of Devonshire, Lord Cecil, of the rifle brigade stationed in Canada, and Col. Perry, of the Northumberland, now also stationed in Canada, is regarded in official circles as an event which claims for them a cordial reception, they being considered as types of a more friendly and generous class in England than the members of parliament, correspondents of the press, and others, who, after visiting the south, returned to Great Britain sympathizing with the rebels.

The secretary of war directs that hereafter no persons not belonging to the United States service shall be permitted to take passage in any public transport, without the special permission of the war department.

Fort Monroe, April 4.

A flag of truce sent out by the flag ship, to-day, brought back two ladies, the first passengers who have been allowed to leave Norfolk for the north, for weeks. The Richmond Enquirer and Despatch are received. The former is printed on a half sheet. Both papers are entirely barren of news. The official report of Gov. Clark, of North Carolina, states the rebel loss at Newbern as follows: 64 killed, 101 wounded, 413 missing and prisoners. Total 578.

Wm. Gwin arrived at Richmond, yesterday, from Washington. He is a native of Virginia. Capt. John H. Morgan, who is styled the Marion of the war, also arrived in Richmond, yesterday.

On board the Monitor, to-day, the vote of thanks passed by the New York Chamber of Commerce, was read to all hands. Great enthusiasm was exhibited. Lieut. Worden will resume command of the Monitor as soon as he recovers from his injuries, which, according to latest accounts, he expected to very shortly.

St. Louis, April 5.

The correspondent of the Republican, writing from the flag ship Benton, on the evening of the 3d, says: Early this morning an attempt was made to tow the rebel floating battery to a point where it could command our mortar boats. A brisk fire was opened by the mortars, and in course of half an hour the battery was struck several times, splinters being thrown in all directions, and several beams displaced. One shell exploded directly inside the battery, when it was immediately submerged to the water's edge and towed out of range.

The rebel steamer Winchester, which was sunk some time since to obstruct the channel north of the island, used by the rebels as a point from which to watch our movement, was shelled to-day and burned to the water's edge. Skillful firing, to day, made the enemy very cautious, and all their tents have been moved far out of range.

Advices from New Madaid confirm the previous reports of the erection of rebel batteries opposite that point. All quiet there. The river is falling rapidly, and troops can be landed at any point along the banks here.

The Markets.

New York, April 5.

Flour receipts 8,157 bbls.; market dull and drooping. Sales 6,000 bbls. at 5,20a 5,25 for super western; 5,30a5,60 common to medium extra western; 6,75a5,80 for shipping brands R. H. Ohio. Wheat receipts 8,173 bushels; market dull. Nominally unchanged.

Special Correspondence of the Cincinnati Gazette.

Savannah, Tenn., April 1.

The expedition has accomplished nothing as yet that can be laid before the public.

Beauregard's advance camps at Corinth are within six miles of our advance from Pittsburg landing, and the rebel advance camps at Purdy are within five miles of ours in front of Crump's landing.

At Purdy and Bethel the rebels still have only an outpost of four or five regiments, with a small force of artillery and cavalry. At Corinth they may have sixty thousand, including the ten thousand without arms. They claim a hundred thousand, and from that on up indefinitely.

There seems to be no doubt that they mean to make a stand at or near Corinth. They cannot yield that without yielding their whole line of defences along the northern border of the Gulf States.

A portion of Gen. Buell's army was on Sunday morning last within a day's march of Savannah.

Gen. Grant is understood to outrank Gen. Buell, the latter having been confirmed Major General some weeks after Grant.—In this case, therefore, Gen. Grant will command the entire force.

There are rumors, however, that Gen. Halleck will take the field here in person, as soon as the Island No. 10 agony is over, and that there will be four or five *corps d'armee* organized, Potomac army fashion, with the Major Generals, Grant, Smith, Wallace, Buell, and McClernand as commanders. Take (the rumors, not the Generals) with a discount.

The wooden gunboats continue dropping occasional shells into the rebel batteries at and above Eastport, Miss. Little importance is attached to their river defences.

Gen. Grant is to take the field in person at Pittsburg landing to day, unless the plans should be changed.

The weather is sultry; delightful mornings and evenings, but decidedly too hot for northern constitutions at noon.

The roads are admirable, and the country toward Corinth is a high upland, about half under cultivation, the rest wooded, through which there are few obstacles to the easy movement of a large army.

Some cotton is being brought in from the country, under escorts of our troops, to prevent the rebels from burning it.—Seventy-five bales came in that way yesterday.

Briefly, that's all the news that ought to get into print. I've sent it all by telegraph but think it as likely as not the dispatches are still floating around in government steamboats, on their way to Cairo. We're having a telegraph built from here to Nashville, across the country, that will be done before long, but it is exclusively for military purposes.

Agate.

Spiking the Enemy's Guns at Island No. 10.

A correspondent of the Chicago Tribune gives the following account of the gallant exploit of spiking six of the enemy's cannon at Island No. 10, on the night of April 1st, during the terrible storm which was so destructive on the river:

It was during the height of this storm that Col. Roberts performed his daring mission. Yesterday morning the flag officer, Captain Phelps, Col. Buford, Secretary Scott and other officers, held a conference upon the flag ships, at which it was decided to make a night reconnoisance of the upper battery, the details of which were left to Col. Buford. He selected Col. Roberts and 40 picked men of his regiment to be the chosen few. Each gunboat furnished a yawl, manned by six of their hardiest seamen. At two o'clock, in the very thickest of the storm, the little party embarked. The flag officer and his subordinates, with Col. Buford, stood upon the deck of the Benton, giving the final orders. The yawls set out upon their perilous journey, and they retired anxiously waiting the result.

Col. Roberts had previously made several very close reconnoisances at night by pulling through the overflowed brush, and had well ascertained the locality of the battery.

The following was the plan laid out: The boats were to approach the battery in line, pulling slowly till at the point of the bar, after which, when 500 yards off, the St. Louis, Benton and Pittsburgh should run abreast, the Cincinnati and Mound City in the rear as reserves, and this plan was carried out to the very letter.

With muffled oars and under cover of the friendly darkness, the boats advanced cautiously along the edge of the bank. Owing to the furious violence of the storm and the darkness, they passed the bend unperceived, until they were within a few rods of the battery. For one instant a blinding flash of lightning glared across the water, revealing to the rebel sentinels dark objects approaching them. The next instant the impenetrable darkness closed in. The sentinels fired wildly three or four times, the shots passing over the boats without doing any damage, and then incontinently fled to their tents, which were pitched upon a high ridge some distance back from the battery, evidently impressed with the alarming idea that the whole Lincoln fleet was upon them, and that immediate annihilation stared them in the face. Our boats made no reply. Not a word was spoken. In two or three minutes they touched the slope of the earthworks. The boys sprung over the parapet, sledges and files were busy, and a few vigorous strokes told the tale. *In less than three minutes' time all the guns in the battery were spiked completely and thoroughly.* They were six in number, all of large calibre—two 64s, three 80s, and one of them a splendid nine-inch pivot gun with cushion-lock, which received the personal attentions of Col. Roberts' brawny arm. It was undoubtedly the Lady Davis. In an inconceivably short time, the boats were on their way back, plowing a path through the surging waves at the imminent risk of submersion, as the current was washing against them with fearful velocity. All arrived safely, however, at the gunboats, exultant over the glorious accomplishment of their important and dangerous mission.

It was in its every phase, one of the most daring exploits of the war. The oldest pilots upon the river say that they cannot remember in their river experiences so terrible a storm of the same duration upon the Mississippi, and can scarcely credit the fact that a boat could live in the raging waters and furious current of last night. Again, our forces had no means of knowing the extent or resources of the garrison.

An official account of this brilliant affair has been transmitted to the navy department, by Flag Officer Foote.

The Proceedings of Congress.

Washington, April 3.

Senate.—Mr. Hale, from the naval committee, reported a bill authorising the secretary of the navy to test plans and materials to render floating batteries invulnerable, with an amendment reducing the appropriation from $50,000 to $25,000. The bill was amended and passed.

Also from the same committee, a bill for the relief of the widows and orphans of the officers of the ships Cumberland and Congress. The bill gives twelve months extra pay to the widow, child, or nearest relative. Passed.

Mr. Doolittle, of Wisconsin, presented the resolutions from the legislature of Wisconsin against imposing a stamp tax on newspapers or any interdiction of suffrage.

Mr. Kennedy, of Maryland, presented a memorial from tobacco planters against the proposed tax on leaf tobacco.

Mr. Wilson, of Massachusetts, offered the following resolution:

Resolved, That the military committee be instructed to report whether any further legislation is necessary to prevent persons employed in the military service of the United States from aiding the rendition or releasing control over persons claimed to be fugitive slaves, and to punish them therefor.

The resolution was laid over.

Mr. Davis, of Kentucky, offered the following:

Resolved, That the war shall not be prosecuted in any spirit of conquest or subjugation, but to defend the constitution and preserve the rights of the several states unimpaired, and the United States will prosecute the war until this is secured.

Laid over.

On motion of Mr. Sumner, of Massachusetts, the bill to administer the oath of allegiance to citizens in foreign countries, was taken up and passed.

The bill to abolish slavery in the District of Columbia was taken up.

Mr. McDougal, of California, spoke against it.

Mr. Ten Eyck, of New Jersey, said he would have preferred a bill providing for a gradual emancipation of the slaves.

Mr. Sumner moved to amend the bill so that in taking testimony before the commissioners no witness shall be excluded on account of color. The amendment was agreed to; yeas 26, nays 10. Nays—Bayard, Carlile, Davis, Nesmith, Kennedy, Powell, Saulsbury, Willey, Wilson of Mo., and Wright.

Clark's and Wright's substitutes were rejected.

Mr. Clark moved to amend the second section by providing that a claimant making a petition for payment for his slaves shall take oath that he has not borne arms in the rebellion, nor given aid or comfort thereto.

Mr. Trumbull, of Illinois, moved to add that such oath of allegiance of the party to the petition shall not be evidence of the facts. Agreed to and amendment adopted.

Mr. Browning, of Illinois, moved to amend that, providing that the average price of a slave shall be $500 instead of $300, one half to be retained by the secretary of the treasury to be paid to the person liberated if he emigrates to another country. Rejected by yeas 10, nays 31.

Mr. Collamer offered an amendment that the owners of persons held to service shall put upon file the name and description of the person liberated by the bill within 20 days after making claim for payment, or within such time as the commissioners may limit; under the penalty of forfeiture of the claim; and that the clerk of the court shall issue certificates of manumission to the persons liberated. Amendment adopted.

Mr. Doolittle offered an amendment appropriating $100,000 to aid in the voluntary emigration of the persons liberated by the bill, and other persons of color liberated in the District of Columbia, to say Liberia, or some other country. Adopted, ayes 27; noes—Chandler, Clark, Fessenden, Foster, Grimes, Hale, Harlan, Howard, Morrill and Pomeroy.

The question was then taken on the passage of the bill, and it passed, as follows: Yeas, 27; Noes—Bayard, Davis, Henderson, Latham, Doolittle, Nesmith, Powell, Saulsbury, Stark, Willey, Wilson of Mo., Wright and Carlile—14. Adjourned.

Thursday Afternoon.

Assembly.—This body did nothing but filibuster for a brief period on the senate resolution declaring that slaves of rebels should be free, at its session this afternoon, and adjourned over.

Friday, April 4.

This morning the resolutions in question were laid on the table. The rule prohibiting debate was so far suspended as to allow discussion on bills in the general file under close restrictions, permitting a member to speak but once and only for ten minutes upon a pending question. A large number of bills were introduced. The most important was a bill by Mr. Webb, postponing the assessment of property and the tax sales till next September. It passed, all rules being suspended. The resolutions repealing the state rights resolutions of '59 are hopelessly suspended between the two houses.

The Senate resolutions for amending the constitution and increasing the number of Judges of the supreme court were lost.—A bill making an appropriation to Adam E. Ray, for Samaritan services, was ordered to a third reading; another for the benefit of Isaac Klauber, identical in principle, was rejected.

Senate.—Thursday afternoon, the resolution rescinding the recess resolution was rejected—ayes 11, noes 15—Mr. Foot voting with the ayes.

Friday, the assembly bill postponing the tax sales and assessment for 1862 to September was passed.

☞ When Vice President Hamlin was at Newport News, on Sunday last, a shell thrown from rebel tugs at and near him and his party. A Sawyer gun put the rebels to flight.

☞ The rebel force on the Rappahannock is dwindling away. A recent reconnoisance discovered only eight regiments of infantry, two of cavalry, and six pieces of artillery.

☞ A portion of Gen. Banks' command has reached Manassas, after a weary march from Winchester.

☞ John Janney, the president of the Virginia seceding convention, has taken the oath of allegiance to the United States.

A Democratic Victory!—The "*democratic*" victory in Kenosha turns out to be the election of a "Union" or people's ticket, on which the only democrat was the mayor, who was elected by 45 majority. Other democratic victories, over which a great shout is raised, will turn out in the same way.

A Slight Cold, Cough, Hoarseness or Sore Throat, which might be checked with a simple remedy, if neglected, often terminates seriously. Few are aware of the importance of stopping a Cough or Slight Cold in its first stage; that which in the beginning would yield to a mild remedy, if not attended to, soon attacks the lungs.

Brown's Bronchial Troches were first introduced eleven years ago. It has been proved that they are the best article before the public for Coughs, Colds, Bronchitis, Asthma, Catarrh, the Hacking Cough in Consumption, and numerous affections of the Throat, giving immediate relief.

The Mutual Life Insurance Company

OF THE

STATE OF WISCONSIN,

Presents advantages in all respects equal, and in some superior, to those of other companies doing business in the northwest. Its rates, its plan of operations, and its basis, are identical with the best companies in this country and Europe. Its age, and consequently its accumulations, are not equal to theirs *in amount*, but in proportion to the age of risks, and amount at risk, they will compare favorably with the most successful.

Its assets, which have resulted solely from the accumulations of three years, amount to **$86,881.20,** and its annual income, from policies now in force, over **$65,000.**

Its assets and business are constantly increasing. Its losses have been promptly paid. Its trustees are well known, honorable business men, and are as capable of managing an institution of this kind, as men in any other portion of the United States. The experience of the company thus far proves that we can have as reliable companies in the west as any where else, if we will, *and self-interest certainly indicates that we should have them, and build up home interests in every practicable way.* In the above respects, this company claims equality with its co-workers, and in the following superiority: It obtains the greater portion of its business in the healthiest portion of the United States, thus having the advantage of a less per centage of loss; it receives higher rates of interest on its investments, thus making more rapid accumulations—both very important items in Life Insurance; *and its expenses have been less* in proportion to its business than any other new company doing business in the United States.

The Daily Gazette.

City of Janesville.

Saturday Evening, April 5, 1862.

Official Paper of the City.

Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

Probable Abandonment of Virginia by the Rebels.

The people in the vicinity of Stafford Court House, in Virginia, just back of the mouth of Acquia creek, informed General Sickles, while on his recent reconnoisance, that the rebel army was falling back on Richmond, and that the confederate government was about to abandon Virginia. We do not doubt that they have done to already, and that the rebel army is also going beyond Richmond to the southwest.—They find that they cannot count very largely upon the inactivity of the federal army, and having eaten up or destroyed everything available in Virginia, they are about to leave that territory to its fate. This result might just as well been achieved, last fall, as now, with proper energy on the part of the commander of our army of the Potomac. We shall soon hear of Jeff. Davis at Montgomery again, waiting for hot weather to decimate our army.

The Expedition to New Mexico.

The order to send several thousand troops to New Mexico, will strike most persons as a singular proceeding. The troops cannot possibly fit out and get there in two months, and by that time the fate of that territory will be decided, by the total defeat of one of the contending parties. If our forces there shall be successful, reinforcements will not be needed, but if they are defeated and captured, it would seem to be better policy to let matters there remain in that situation, until the strength of the rebellion is broken at points nearer home. The expense of keeping a large force in New Mexico will be enormous, as is proved by the cost of the Utah expedition. Supplies must be hauled over 600 miles by guarded caravans. We question whether, when the secretary of war counts the expense of this expedition, he will approve of it.

Abolition in the District.

The bill to abolish slavery in the District of Columbia, has passed the senate. This is a mark of progress in the right direction, and thousands will rejoice that slavery is in a fair way to be driven from the national capital. We hope the house will pass the bill without delay.

According to the report of the proceedings on the passage of the bill, Mr. Doolittle against the it. We trust this is an error, and shall be most happy to make the correction if it shall turn out to be so.

☞ One of Marshal Lamon's aids took fugitive slave out of a New York artillery camp on the 3d, and returned him to his master. It is said there have been other cases of similar iniquity.

The President's emancipation resolution passed the Senate Thursday, by a vote of 32 yeas and 10 nays. Among the affirmative votes was Garrett Davis of Kentucky.

Snow has lately fallen in Rome, and though it lasted only an hour the schools were let out to allow the scholars to enjoy the rare treat. In the country and on the mountains round Rome it has fallen abundantly, and from the top of the Quirinal all the heights and plains around appear of dazzling whiteness.

A Nigger Catching General.—The Nashville Patriot says that whenever fugitives come into Gen. McCook's lines, they are secured, and a record made of their names and the names of the owners. "All the owner has to do is to apply either in person or through an agent, examine the record, or look at the slaves, and if he finds any that belong to him, take them away." This is nice business for one of our generals. It appears that he keeps a slave pen, doubtless with a guard of soldiers, in which are incarcerated any loyal colored man who may come into his lines to give him information of the enemy. If an unscrupulous "nigger thief" comes along and claims a slave, he has his pick out of Gen. McCook's barracoon. The Patriot says it gives it "great pleasure" to make this statement. No doubt of it, and there is just as little doubt that the federal power in Tennessee is a stronger protector of slavery than the rebel army; the latter, according to Parson Brownlow, having stolen more slaves during the rebellion, than all the abolitionists during the existence of the government.

☞ Rev. Geo. Jordon, president of Iberia College, Ohio, imprisoned for resistance to the execution of the fugitive slave law, has received a free pardon from the president, on grounds that the evidence don't show that he actually participated in the resistance, and that he has already suffered enough.

☞ Carl Schurz is to have command of a division in Gen. Fremont's Department. His command will be principally German. Gen. Blenker, with his division, has also been assigned to Gen. Fremont.

Serious rumors are afloat at Washington affecting Secretary Smith and the Commissioners of Patents and Pensions, Smith's son, and Clark, a brother in-law, his financial superintendent.

From the Third Cavalry.

Third Wis. Cavalry, Benton Barracks, St. Louis, April 1, 1862.

Messrs. Editors:—Having promised several of my friends to give them an account of our progress from time to time, and as your paper is extensively read by them, I address them through your columns, (with your permission of course,) from this point.

You have already received the sad intelligence of our disaster on the railroad, in which eleven of our number were precipitately borne from our ranks to the world of spirits, and others seriously wounded, but you can form but a faint idea of the scene from any mere pen picture of it. While full of buoyancy and hope, in the expectation of a safe and agreeable entrance into our quarters—some whiling away the hours in social chat, and others yielding to the sweet influence of meditation, with now and then a sigh for home, perhaps—suddenly a crash was felt, and instantly the cars came to a stop in the most terrific smash up I ever saw. One of them was literally splintered, and the only wonder is, that instead of eleven, one hundred and fifty were not killed.

It was midnight, and dark and lonely was the spot for such a catastrophe. Added to the terror of the accident, was the expectation that the second train, in the rear of us, would be without signal in time to prevent rushing into the wreck, whilst many were imprisoned by the jammed condition of the cars, and despite all the efforts of our remarkably cool and self-controlled officers, who made every exertion to keep the men quiet, several rushed to the windows and leaped from them into the snow and water, fortunately without serious consequences.

As soon as possible, the officers with feelings of humanity, for which, thank God, they are all richly endowed, obtained lights and proceeded to remove the dead and injured victims.

Our gallant and beloved Col. Barstow, and Lieut. Col. White, were on the spot, and by their calm judgment, preserved the best of order during the painful duties that devolved upon the affrighted and afflicted soldiers; with a bosom swelling with the emotions of a generous and sympathizing nature, the colonel stood by the side of the lifeless forms of his men, with marks of feeling which showed to the observing eye, that the brave officer may carry as tender and sensitive a heart towards his men as the fondest father bears for the children of his care. And what is true in this respect of the colonel, is also true in relation to all his well selected staff and other officers.

Every thing was done for the suffering that could have been done, as well by the wise direction of movements of those present, as in sending to Chicago for aid. And in as brief a period of time as possible, cars were brought in from the city, and the regiment proceeded on, in good order.

By the accident, we were detained in Chicago for several hours, during which time every attention needed, was bestowed upon the comfort of the regiment by those in command, and we were brought on thence forward in safety, arriving at St. Louis in the morning of Thursday. From thence, we marched through the city on foot to the barracks, amid the incessant cheers and welcome of thousands. From every window and balcony, were seen the waving of white handkerchiefs, in the hands of smiling ladies and gentlemen. From every window of one large and elegant mansion peered the face of young ladies, whose sweet voices were heard above the tramp of the passing regiment, while they sang the "Star Spangled Banner" with a feeling of heartiness that beamed from every eye. If there are any secessionists in the city, they are not to be found in that galaxy of the daughters of Missouri.

We are now all comfortably settled in our quarters, and generally in the best condition of health, although the contrast, in the atmosphere is very great, from cold snow banks to green foliage and balmy air.

Our quarters are in a portion of the elegant and capacious fair grounds. It is a charming location in the midst of a delightful grove, and commands a fine view of the surrounding rural scenes. With any reasonable degree of attention to the laws of health by our men, we shall enjoy ourselves finely.

On Sunday morning, the 3d and 2d regiments were marched into the spacious area of the grounds and listened to an eloquent and appropriate discourse from our Chaplain, Rev. Dr. Beers. It was an imposing scene, to behold over two thousand soldiers, respectfully listening to the words of truth and love, while their forms were clad in the vestments of war.

To day, our Regiment was called out for review, by General Strong and Gov. Harvey, who highly complimented the Colonel for his success in getting up his regiment. In fact, it is, unquestionably one of the best regiments in the state, and when properly drilled as we soon shall be we hope to add brighter laurels still, to our already enviable name in the army of the Union. If experienced officers and ambitious men can win fame, I believe it will be ours.

The 16th Regiment of Iowa Infantry, left the barracks to-day for Tennessee.—Another regiment left on last Saturday. But, their place will be supplied by the 18th Wisconsin, and others coming in.

We still have regiments—here, and all in unusually good health and in fine spirits. In fact, we are all most happily disappointed with the condition in which we find the army here, notwithstanding the the favorable accounts we have had of the superior abilities of the popular general in command of the divison.

That there are a few lurking demons outside of our quarters, who would immolate their preservers, if possible, is evident from the fact that, some miscreant sold poisoned fruits with fatal results to some two or three of our outer guards, yesterday. The first intimation we had of the fact, was a friendly hint to us by our thoughtful and sympathising Captain Justin, that we had better not buy any more of their "luxuries."

It is not an uncommon occurence to hear of a picket being shot, so that we are satisfied that the diabolical spirit of the prime ministers of treason and rebellion against the Union is not exorcised yet, even by the fraternal care which has been shown toward the citizens of the rebellious states in every step taken towards its suppression by the government. But our confidence is every day increased in the prospect of a complete reversion of the views and feelings of the most disloyal citizens of the revolted states, as they shall learn that the army of the Union is friendly to, and not inimical to the welfare of the people, North or South.

For any imperfections in this hastily written letter, please find apology in the fact that we are writing on a small box, sitting on the bosom of the mother earth, and in the midst very of active camp duties—accommodations furnished in the unfurnished tent of your friend Sergt. Major Gillett. In my next I will endeavor to give a few more general and interesting details. Till then,

Fourteen thousand barrels of flour, and 12,000 bushels of grain, have come in by the Chesapeake and Ohio canal since the opening.

The steamer Coeur de Leon arrived here last night from the lower Potomac and reports that visits to over 100 families disclosed a strong Union sentiment in Westmoreland county, Virginia. It was also ascertained that much dissatisfaction exists among the rebels, and that many of them would gladly make their escape. Fort Lowry, on the Rappahannock, mounting 12 guns, is represented as having been abandoned, and the river up to the town of Rappahannock, which is 40 miles from its mouth, is clear of armed rebels in force. A boat's crew from the Coeur de Leon recently burned the rebel schooner Union, in Cuchcomico Creek, not having been able to float her out.

The vote in this city to day gives 646 majority for the new Constitution, and a majority of 588 in favor of gradual emancipation. Interior counties, as far heard from, give same ratio.

Tribune's special.—Wm. H. Russell, of the London Times, has engaged passage to England in the next steamer.

Times' special.—The committee on the conduct of the war have examined several witnesses, bearing upon the charge of atrocities by the rebels on the wounded soldiers at the battle of Bull Run, and the evidence is a disgraceful record against the chivalrous southerners.

The house committee on printing introduced a resolution, to day, providing for the printing of 100,000 extra copies of the final report of the commissioners on war claims at St Louis.

It is asserted in official circles that Brigadier General Rosecranz is to be promoted to Major General.

Washington, April 4.

The Times' correspondent telegraphs, to-night, from Budd's Ferry as follows:

Hooker's Division, Thursday, April 3.

A corpse of pocket men belonging to the Excelsior brigade, left Liverpool Point, under the command of Gen. Sickles, early on Monday morning for Stafford court house, on a reconnoisance. The troops landed at Shipping Point batteries and marched from thence past Dumfries, through Acquia to Stafford court house.

There was skirmishing between a body of 600 rebel cavalry and the advanced corps of Sickles' command, six miles this side of Stafford, and firing on both sides was continued until we reached that place. The rebels in their retreat set fire to the town, and all the stores. Our forces promptly stopped the conflagration. A number of prisoners, horses, stores, &c., fell into our hands.

From Brooks' Station, a force of 1200 rebel infantry and a battery of six field pieces were moving up to support their cavalry.

After remaining three hours in Stafford, camp fires were built on the hills to deceive the rebels, while our forces withdrew from the place. General Sickles with part of his corps, arrived back at Shipping point this morning. The rest came in at Brent's Ferry, opposite Liverpool point.

Our casualties were two wounded and a few missing. The corps marched 48 miles in 15 hours, over the worst mountain roads.

At Fredericksburg there are a few troops. They are falling back to Richmond. The citizens state that the confederate government intend to abandon Virginia.

New York, April 3.

The billiard match between Foley and Derry was won by Foley by 498 points in a game of 1,500.

Times dispatch—The grand jury of the District of Columbia has found two bills of indictment against Horace Greeley for an attack made upon the marshal of the district in the columns of the New York Tribune.

Washington, April 4.

A military hospital has been ordered to be established at New Albany, Indiana, and Jefferson Barracks, near St. Louis, have been converted into a military hospital.

The secretary of war has communicated to congress his opinion that the present organization of the medical bureau is inadequate to the service. He has authorized the surgeon general of New York, under direction of the governor, to organize volunteer surgeons to render medical aid when requested. A similar organization has been made by the governor of Pennsylvania, and valuable service has been rendered.

Cincinnati, April 5.

The public reception of Parson Brownlow at Pike's opera house last night was an immense affair. Every available spot in the house was occupied. Mr. Brownlow was introduced to the audience by Joseph C. Butler, president of the chamber of commerce, in a few appropriate remarks. Mr. Brownlow spoke, relating his experience, the operations of the rebellion in East Tennessee, and the sufferings of himself and of the Union men while imprisoned in Knoxville, was listened to with profound attention. Speeches were also made by Generals F. Carrs, and Lieut. Gov. Fisk, of Kentucky. Resolutions were adopted demanding a vigorous and unceasing prosecution of the war and punishment of leading traitors, resolving that the flag of the Union shall again float triumphantly over the walls of Sumter, and from every other fort belong to the Union; that our warmest sympathies are with our distinguished guest, and calling upon the government to afford speedy relief to the loyal Union men of the south, especially those of East Tennessee. The exercises were closed by singing "Hail Columbia" by a large number of children from the public schools of the city, who were seated on the stage.

Afternoon Despatches.

Washington, April 5.

Complaints having been made by the commanders of military posts, that movements are impeded and discipline relaxed by the presence of male and female visitors, the secretary of war has ordered that no passes be granted to visit Fortress Monroe or other military posts, and has authorized commanders of military posts to remove all persons not engaged in the service. Passes for the purpose of trade and business are also refused.

The arrival here of Lord Edward Cavandish, son of the late Duke of Devonshire, Lord Cecil, of the rifle brigade stationed in Canada, and Col. Perry, of the Northumberland, now also stationed in Canada, is regarded in official circles as an event which claims for them a cordial reception, they being considered as types of a more friendly and generous class in England than the members of parliament, correspondents of the press, and others, who, after visiting the south, returned to Great Britain sympathizing with the rebels.

The secretary of war directs that hereafter no persons not belonging to the United States service shall be permitted to take passage in any public transport, without the special permission of the war department.

Fort Monroe, April 4.

A flag of truce sent out by the flag ship, to-day, brought back two ladies, the first passengers who have been allowed to leave Norfolk for the north, for weeks. The Richmond Enquirer and Despatch are received. The former is printed on a half sheet. Both papers are entirely barren of news. The official report of Gov. Clark, of North Carolina, states the rebel loss at Newbern as follows: 64 killed, 101 wounded, 413 missing and prisoners. Total 578.

Wm. Gwin arrived at Richmond, yesterday, from Washington. He is a native of Virginia. Capt. John H. Morgan, who is styled the Marion of the war, also arrived in Richmond, yesterday.

On board the Monitor, to-day, the vote of thanks passed by the New York Chamber of Commerce, was read to all hands. Great enthusiasm was exhibited. Lieut. Worden will resume command of the Monitor as soon as he recovers from his injuries, which, according to latest accounts, he expected to very shortly.

St. Louis, April 5.

The correspondent of the Republican, writing from the flag ship Benton, on the evening of the 2d, says: Early this morning an attempt was made to tow the rebel floating battery to a point where it could command our mortar boats. A brisk fire was opened by the mortars, and in course of half an hour the battery was struck several times, splinters being thrown in all directions, and several beams displaced. One shell exploded directly inside the battery, when it was immediately submerged to the water's edge and towed out of range.

The rebel steamer Winchester, which was sunk some time since to obstruct the channel north of the island, used by the rebels as a point from which to watch our movement, was shelled to-day and burned to the water's edge. Skillful firing, to day, made the enemy very cautious, and all their tents have been moved far out of range.

Advices from New Madaid confirm the previous reports of the erection of rebel batteries opposite that point. All quiet there. The river is falling rapidly, and troops can be landed at any point along the banks here.

The Markets.

Flour receipts 8,457 bbls.; market dull and drooping. Sales 6,000 bbls. at 5,20a 5,25 for super western; 5,30a5,60 common to medium extra western; 6,75a5,80 for shipping brands R. H. Ohio. Wheat receipts 8,173 bushels; market dull. Nominally unchanged.

Special Correspondence of the Cincinnati Gazette.

Savannah, Tenn., April 1.

The expedition has accomplished nothing as yet that can be laid before the public.

Beauregard's advance camps at Corinth are within six miles of our advance from Pittsburg landing, and the rebel advance camps at Purdy are within five miles of ours in front of Crump's landing.

At Purdy and Bethel the rebels still have only an outpost of four or five regiments, with a small force of artillery and cavalry. At Corinth they may have sixty thousand, including the ten thousand without arms. They claim a hundred thousand, and from that on up indefinitely.

There seems to be no doubt that they mean to make a stand at or near Corinth. They cannot yield that without yielding their whole line of defences along the northern border of the Gulf States.

A portion of Gen. Buell's army was on Sunday morning last within a day's march of Savannah.

Gen. Grant is understood to outrank Gen. Buell, the latter having been confirmed Major General some weeks after Grant.—In this case, therefore, Gen. Grant will command the entire force.

There are rumors, however, that Gen. Halleck will take the field here in person, as soon as the Island No. 10 agony is over, and that there will be four or five *corps d'armee* organized, Potomac army fashion, with the Major Generals, Grant, Smith, Wallace, Buell, and McClernand as commanders. Take (the rumors, not the Generals) with a discount.

The wooden gunboats continue dropping occasional shells into the rebel batteries at and above Eastport, Miss. Little importance is attached to their river defences.

Gen. Grant is to take the field in person at Pittsburg landing to day, unless the plans should be changed.

The weather is sultry; delightful mornings and evenings, but decidedly too hot for northern constitutions at noon.

The roads are admirable, and the country toward Corinth is a high upland, about half under cultivation, the rest wooded, through which there are few obstacles to the easy movement of a large army.

Some cotton is being brought in from the country, under escorts of our troops, to prevent the rebels from burning it.—Seventy-five bales came in that way yesterday.

Briefly, that's all the news that ought to get into print. I've sent it all by telegraph but think it as likely as not the dispatches are still floating around in government steamboats, on their way to Cairo. We're having a telegraph built from here to Nashville, across the country, that will be done before long, but it is exclusively for military purposes.

Spiking the Enemy's Guns at Island No. 10.

A correspondent of the Chicago Tribune gives the following account of the gallant exploit of spiking six of the enemy's cannon at Island No. 10, on the night of April 1st, during the terrible storm which was so destructive on the river:

It was during the height of this storm that Col. Roberts performed his daring mission. Yesterday morning the flag officer, Captain Phelps, Col. Buford, Secretary Scott and other officers, held a conference upon the flag ships, at which it was decided to make a night reconnoisance of the upper battery, the details of which were left to Col. Buford. He selected Col. Roberts and 40 picked men of his regiment to be the chosen few. Each gunboat furnished a yawl, manned by six of their hardiest seamen. At two o'clock, in the very thickest of the storm, the little party embarked. The flag officer and his subordinates, with Col. Buford, stood upon the deck of the Benton, giving the final orders. The yawls set out upon their perilous journey, and they retired anxiously waiting the result.

Col. Roberts had previously made several very close reconnoisances at night by pulling through the overflowed brush, and had well ascertained the locality of the battery.

The fodowing was the plan laid out: The boats were to approach the battery in line, pulling slowly till at the point of the bar, after which, when 500 yards off, the St. Louis, Benton and Pittsburgh should run abreast, the Cincinnati and Mound City in the rear as reserves, and this plan was carried out to the very letter.

With muffled oars and under cover of the friendly darkness, the boats advanced cautiously along the edge of the bank. Owing to the furious violence of the storm and the darkness, they passed the bend unperceived, until they were within a few rods of the battery. For one instant a blinding flash of lightning glared across the water, revealing to the rebel sentinels dark objects approaching them. The next instant the impenetrable darkness closed in. The sentinels fired wildly three or four times, the shots passing over the boats without doing any damage, and then incontinently fled to their tents, which were pitched upon a high ridge some distance back from the battery, evidently impressed with the alarming idea that the whole Lincoln fleet was upon them, and that immediate annihilation stared them in the face. Our boats made no reply. Not a word was spoken. In two or three minutes they touched the slope of the earthworks. The boys sprung over the parapet, sledges and files were busy, and a few vigorous strokes told the tale. *In less than three minutes' time all the guns in the battery were spiked completely and thoroughly.* They were six in number, all of large calibre—two 64s, three 80s, and one of them a splendid nine-inch pivot gun with cushionlock, which received the personal attentions of Col. Roberts' brawny arm. It was undoubtedly the Lady Davis. In an inconceivably short time, the boats were on their way back, plowing a path through the surging waves at the imminent risk of submersion, as the current was washing against them with fearful velocity. All arrived safely, however, at the gunboats, exultant over the glorious accomplishment of their important and dangerous mission.

It was in its every phase, one of the most daring exploits of the war. The oldest pilots upon the river say that they cannot remember in their river experiences so terrible a storm of the same duration upon the Mississippi, and can scarcely credit the fact that a boat could live in the raging waters and furious current of last night. Again, our forces had no means of knowing the extent or resources of the garrison.

An official account of this brilliant affair has been transmitted to the navy department, by Flag Officer Foote.

The Proceedings of Congress.

Washington, April 3.

Senate.—Mr. Hale, from the naval committee, reported a bill authorising the secretary of the navy to test plans and materials to render floating batteries invulnerable, with an amendment reducing the appropriation from $50,000 to $25,000. The bill was amended and passed.

Also from the same committee, a bill for the relief of the widows and orphans of the officers of the ships Cumberland and Congress. The bill gives twelve months extra pay to the widow, child, or nearest relative. Passed.

Mr. Doolittle, of Wisconsin, presented the resolutions from the legislature of Wisconsin against imposing a stamp tax on newspapers or any interdiction of suffrage.

Mr. Kennedy, of Maryland, presented a memorial from tobacco planters against the proposed tax on leaf tobacco.

Mr. Wilson, of Massachusetts, offered the following resolution:

Resolved, That the military committee be instructed to report whether any further legislation is necessary to prevent persons employed in the military service of the United States from aiding the rendition or releasing control over persons claimed to be fugitive slaves, and to punish them therefor.

The resolution was laid over.

Mr. Davis, of Kentucky, offered the following:

Resolved, That the war shall not be prosecuted in any spirit of conquest or subjugation, but to defend the constitution and preserve the rights of the several states unimpaired, and the United States will prosecute the war until this is secured.

Laid over.

On motion of Mr. Sumner, of Massachusetts, the bill to administer the oath of allegiance to citizens in foreign countries, was taken up and passed.

The bill to abolish slavery in the District of Columbia was taken up.

Mr. McDougal, of California, spoke against it.

Mr. Ten Eyck, of New Jersey, said he would have preferred a bill providing for a gradual emancipation of the slaves.

Mr. Sumner moved to amend the bill so that in taking testimony before the commissioners no witness shall be excluded on account of color. The amendment was agreed to; yeas 26, nays 10. Nays—Bayard, Carlile, Davis, Nesmith, Kennedy, Powell, Saulsbury, Willey, Wilson of Mo., and Wright.

Clark's and Wright's substitutes were rejected.

Mr. Clark moved to amend the second section by providing that a claimant making a petition for payment for his slaves shall take oath that he has not borne arms in the rebellion, nor given aid or comfort thereto.

Mr. Trumbull, of Illinois, moved to add that such oath of allegiance of the party to the petition shall not be evidence of the facts. Agreed to and amendment adopted.

Mr. Browning, of Illinois, moved to amend that, providing that the average price of a slave shall be $500 instead of $300, one half to be retained by the secretary of the treasury to be paid to the person liberated if he emigrates to another country. Rejected by yeas 10, nays 31.

Mr. Collamer offered an amendment that the owners of persons held to service shall put upon file the name and description of the person liberated by the bill within 20 days after making claim for payment, or within such time as the commissioners may limit; under the penalty of forfeiture of the claim; and that the clerk of the court shall issue certificates of manumission to the persons liberated. Amendment adopted.

Mr. Doolittle offered an amendment appropriating $100,000 to aid in the voluntary emigration of the persons liberated by the bill, and other persons of color liberated in the District of Columbia, to say Liberia, or some other country. Adopted, ayes 27; noes—Chandler, Clark, Fessenden, Foster, Grimes, Hale, Harlan, Howard, Morrill and Pomeroy.

The question was then taken on the passage of the bill, and it passed, as follows: Yeas, 27; Noes—Bayard, Davis, Henderson, Latham, Doolittle, Nesmith, Powell, Saulsbury, Stark, Willey, Wilson of Mo., Wright and Carlile—14. Adjourned.

Legislative.

Thursday Afternoon.

Assembly.—This body did nothing but filibuster for a brief period on the senate resolution declaring that slaves of rebels should be free, at its session this afternoon, and adjourned over.

Friday, April 4.

This morning the resolutions in question were laid on the table. The rule prohibiting debate was so far suspended as to allow discussion on bills in the general file under close restrictions, permitting a member to speak but once and only for ten minutes upon a pending question. A large number of bills were introduced. The most important was a bill by Mr. Webb, postponing the assessment of property and the tax sales till next September. It passed, all rules being suspended. The resolutions repealing the state rights resolutions of '59 are hopelessly suspended between the two houses.

The Senate resolutions for amending the constitution and increasing the number of Judges of the supreme court were lost.—A bill making an appropriation to Adam E. Ray, for Samaritan services, was ordered to a third reading; another for the benefit of Isaac Klauber, identical in principle, was rejected.

Senate.—Thursday afternoon, the resolution rescinding the recess resolution was rejected—ayes 11, noes 15—Mr. Foot voting with the ayes.

Friday, the assembly bill postponing the tax sales and assessment for 1862 to September was passed.

☞ When Vice President Hamlin was at Newport News, on Sunday last, a shell throwa from rebel tugs at and near him and his party. A Sawyer gun put the rebels to flight.

☞ The rebel force on the Rappahannock is dwindling away. A recent reconnoisance discovered only eight regiments of infantry, two of cavalry, and six pieces of artillery.

☞ A portion of Gen. Banks' command has reached Manassas, after a weary march from Winchester.

☞ John Janney, the president of the Virginia seceding convention, has taken the oath of allegiance to the United States.

A Democratic Victory!—The "*democratic*" victory in Kenosha turns out to be the election of a "Union" or people's ticket, on which the only democrat was the mayor, who was elected by 45 majority. Other democratic victories, over which a great shout is raised, will turn out in the same way.

A Slight Cold,

Cough, Hoarseness or Sore Throat, which might be checked with a simple remedy, if neglected, often terminates seriously. Few are aware of the importance of stopping a Cough or Slight Cold in its first stage; that which in the beginning would yield to a mild remedy, if not attended to, soon attacks the lungs.

Brown's Bronchial Troches were first introduced eleven years ago. It has been proved that they are the best article before the public for Coughs, Colds, Bronchitis, Asthma, Catarrh, the Hacking Cough in Consumption, and numerous affections of the Throat, giving immediate relief.

The Mutual Life Insurance Company

OF THE

STATE OF WISCONSIN.

Presents advantages in all respects equal, and in some superior, to those of other companies doing business in the northwest. Its rates, its plan of operations, and its basis, are identical with the best companies in this country and Europe. Its age, and consequently its accumulations, are not equal to theirs *in amount*, but in proportion to the age of risks, and amount at risk, they will compare favorably with the most successful.

Its assets, which have resulted solely from the accumulations of three years, amount to **$86,381.20,** and its annual income, from policies now in force, over **$65,000.**

Its assets and business are constantly increasing. Its losses have been promptly paid. Its trustees are well known, honorable business men, and are as capable of managing an institution of this kind, as men in any other portion of the United States. The experience of the company thus far proves that we can have as reliable companies in the west as any where else, if we will, *and self-interest certainly indicates that we should have them, and build up home interests in every practicable way.* In the above respects, this company claims equality with its co-workers, and in the following superiority: It obtains the greater portion of its business in the healthiest portion of the United States, thus having the advantage of a less per centage of loss; it receives higher rates of interest on its investments, thus making more rapid accumulations—both very important items in Life Insurance: *and its expenses have been less* in proportion to its business than any other new company doing business in the United States.

Bar Meeting.

Isaac Woodle, Esq., a member of the Rock county bar, having been called from time to eternity on Thursday morning the of 3rd this month, on the morning of the 4th inst. his brother members of the bar assembled at the office of Messrs. FORT SCOTT, KANSAS, March 20, 1862.

MESSRS EDITORS:—General Deitzler's brigade has recently been ordered to New Mexico via Lawrence. It consists of the 12th and 13th Wisconsin regiments and 1st Kansas. The first Kansas left here Tuesday morning; the 13th, Wednesday; and and the 12th, this morning. They are to go to Lawrence and there receive their outfit, and provisions adequate to their wants. This new movement arose from the unsubsided difficulties in New Mexico, and defeat at Fort Craig.

The 2d Ohio cavalry is here yet, and the 2d Indiana battery, composed of six rifled cannon and manned by one hundred and forty men.

The 13th leaves 12 behind sick, who will be properly cared for at the general hospital, viz:

Joel Heath, E. P. Babcock, Joseph Goverour, August Prelwits, N. Van De Bogert, E. L. Miller, E. L. Smith, C. Healy, E. E. Cooper, John Stoner, C. G. Stillman, and Joseph Baker.

The most of the boys seem to be highly pleased with the new movement that has taken place, and carry the idea that they will go home instead of going to New Mexico.

General Doubleday commands this post at present. O. A. C.

ANOTHER FATAL ACCIDENT.—A man named Snell, living about two miles east of Edgerton, was so much injured on the rail road last evening that he died three hours afterwards. He was drunk and had fallen on the track. The locomotive passed over his leg before the train could be stopped.

DR. J. BOVEE DODS'

IMPERIAL WINE

BITTERS,

ARE made from a pure and unadulterated Wine, which is about double the usual strength of other Wines, and is imported by only one house in the United States. Also, from the following valuable Roots, Herbs, &c., viz: Solomon's Seal, Spikenard, Camomile Flowers, Gentian, Wild Cherry Tree Bark, and Bayberry.

WE CHALLENGE

THE WORLD

to produce

THEIR EQUAL!

We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all diseases which flesh is heir to," but we claim to present to the public a truly valuable preparation, which every intelligent Physician in the country will approve of and recommend. As a remedy for

INCIPIENT CONSUMPTION,

Weak Lungs, Indigestion, Dyspepsia, Diseases of the Nervous System, Paralysis, Piles, Diseases peculiar to Females, Debility, and all cases requiring a Tonic, they are

UNSURPASSED!

For Sore Throat, so common among the Clergy, they are truly valuable.

For the aged and infirm, or for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.

As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhilirating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to refrain from it. They are pure and entirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded.

These Bitters not only CURE, but PREVENT Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with impunity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

Bar Meeting.

Isaac Woodle, Esq., a member of the Rock county bar, having been called from time to eternity on Thursday morning the of 3rd this month, on the morning of the 4th inst. his brother members of the bar assembled at the office of Messrs. Sloan, Patten & Bailey, for the purpose of rendering a suitable testimonial of their respect to the memory of the deceased,—whereupon Hon. DAVID NOGGLE was called to the chair, and JAMES ARMSTRONG appointed secretary.

On motion of Wm. H. Ebbetts, Esq., a committee of five was appointed to draft resolutions suitable to the occasion.

The chair appointed as such committee Wm. H. Ebbetts, I. C. Sloan, J. W. D. Parker, J. R. Bennett and John J. R. Pease.

On motion the meeting adjourned until Saturday morning at 10 o'clock to receive the report of the committee.

SATURDAY, 10 o'clock A. M.

The members of the bar met according to adjournment, when the committee, thro' their chairman Wm. H. Ebbetts, Esq., reported the following resolutions, which on motion of B. B. Eldredge, Esq., were unanimously adopted.

Resolved, That by the death of Isaac Woodle, Esq., the Rock County Bar has lost one of its oldest and most prominent members, who was honored for his ability, respected for his uniform gentlemanly demeanor, and loved as a friend for his warm heart and fine social qualities.

Resolved, That we tender to the family of the deceased, whose loss is infinitely greater than ours, our heartfelt sympathy and confidence; and trust that "He who doeth all things well," will support and comfort them in their great bereavement.

Resolved, That we will attend the funeral in a body and wear the usual badge of mourning.

Resolved, That a copy of these resolutions be transmitted to the family of the deceased, and published in the city paper.

On motion, Sheriff S. J. M. Correspondence of the Daily Gazette.

From the Thirteenth Regiment.

FORT SCOTT, KANSAS, March 26, 1862.

MESSRS EDITORS:—General Deitzler's brigade has recently been ordered to New Mexico via Lawrence. It consists of the 12th and 13th Wisconsin regiments and 1st Kansas. The first Kansas left here Tuesday morning; the 12th Wednesday; and the 13th this morning. They are to go to Lawrence and there receive their outfit, and provisions adequate to their wants. This new movement arose from the unsubsided difficulties in New Mexico, and defeat at Fort Craig.

The 2d Ohio cavalry is here yet, and the 2d Indiana battery, composed of six rifled cannon and manned by one hundred and forty men.

The 13th leaves 12 behind sick, who will be properly cared for at the general hospital, viz:

Joel Heath, E. P. Babcock, Joseph Goverour, August Prelwits, N. Van De Bogert, E. L. Miller, E. L. Smith, C. Healy, E. E. Cooper, John Stoner, C. G. Stillman, and Joseph Baker.

The most of the boys seem to be highly pleased with the new movement that has taken place, and carry the idea that they will go home instead of going to New Mexico.

General Doubleday commands this post at present. O. A. C.

ANOTHER FATAL ACCIDENT.—A man named Snell, living about two miles east of Edgerton, was so much injured on the rail road last evening that he died three hours afterwards. He was drunk and had fallen on the track. The locomotive passed over his leg before the train could be stopped.

FOUND.—A new market basket, enquire at this office.

☞ President Lincoln visited Mount Vernon on the 1st inst.

TO THE MEMBERS OF THE MASONIC FRATERNITY.—Whereas it has pleased the Great Creator to call from our midst our worthy brother, Isaac Woodle, the brethren of Western Star Lodge No. 14, of which he was a member, as well as all good masons in regular standing, are requested and invited to meet at the Masonic Hall, in this city, on Monday, the 7th inst., at 11½ o'clk A. M., for the purpose of attending the funeral of our late brother.

ANDREW BOSS, Jr.,
W. M., Western Star Lodge.

JANESVILLE, April 5th, 1862.

WASHINGTON ENGINE COMPANY NO. 3.—The regular meeting of this company will be held Monday, April 7th at 7½ o'clock.

PERSONAL.—Gov. Harvey returned from St. Louis, Friday night.

GOVIER & HARVEY

RESPECTFULLY beg to inform the inhabitants of Janesville and its environs that they are Brewing a very superior Ale, which for

Purity and Delicacy of Flavor

cannot be excelled.

This WHOLESOME and highly commended Beverage is fast getting into general use, and is, for the convenience of families, put up in KEGS, half barrels and barrels.

Saloon and Tavern keepers are solicited to give this Ale a trial.

Country or city orders promptly executed at the Eagle Brewery, formerly Bunster's Brewery, rear of Big Mill, west side river, Janesville, Wisconsin, or at Harvey's Liquor Store, Main street. mr2dtf

DR. J. BOVEE DODS'

IMPERIAL WINE

BITTERS,

ARE made from a pure and unadulterated Wine, which is about double the usual strength of other Wines, and is imported by only one house in the United States. Also, from the following valuable Roots, Herbs, &c., viz: Solomon's Seal, Spikenard, Camomile Flowers, Gentian, Wild Cherry Tree Bark, and Bayberry.

WE CHALLENGE

THE WORLD

to produce

THEIR EQUAL!

We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all diseases which flesh is heir to," but we claim to present to the public a truly valuable preparation, which every intelligent Physician in the country will approve of and recommend. As a remedy for

INCIPIENT CONSUMPTION,

Weak Lungs, Indigestion, Dyspepsia, Diseases of the Nervous System, Paralysis, Piles, Diseases peculiar to Females, Debility, and all cases requiring a Tonic, they are

UNSURPASSED!

For Sore Throat, so common among the Clergy, they are truly valuable.

For the aged and infirm, or for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.

As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhilarating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to refrain from it. They are pure and entirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded.

These Bitters not only CURE, but PREVENT Disease, and should be used by all who live in a country where the water is bad or where Chills and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with impunity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

A Great National Work,

Something for Every Citizen, Every Fireside, Every Reader!

NO MAN, NO FAMILY, NO OFFICE SHOULD BE WITHOUT IT.

The only Correct and Complete

HISTORY OF THE WAR.

THE SOUTHERN REBELLION

and the

WAR FOR THE UNION:

A History of the

Rise and Progress of the Rebellion,

and

Consecutive Narrative of Events and Incidents, from the First Stages of the Treason Against the Republic down to the Close of the Conflict,

TOGETHER WITH IMPORTANT DOCUMENTS AND EXTRACTS FROM REMARKABLE SPEECHES.

In Weekly Parts, 32 pages, large 8vo, Price 10 Cents.

THE want of an *authentic* and *thorough* History of the Rebellion, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the mazes of the rumors, reports, dispatches, letters and editorials of the daily newspapers, to *precipitate*, from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of *permanent value as well as of present interest*, the publisher has arranged for the issue of the history as above set forth—in a form and at a price which shall render it *acceptable to all*.

This history will tell the STORY AS IT IS, giving a clear, consecutive narrative of the entire movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a mere diary, nor a mere enumeration of dry and naked dates, nor a compilation of slips from newspapers, but will portray in connected and interesting narrative, the revolutionary steps, as well as the measures of the government.

It will carefully digest all evidence—will sift all rumors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to the hasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, earnest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and not a *correct, connected* and *complete* history. The above publication, afterwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the Life of Washington and worthy to be kept for children and grand children as a memorial of the present time.

It will thus prove desirable, available and satisfactory to every citizen, every family, every office, every library; and is given to the public in the full assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Glorious Land.

The only Correct and Complete

HISTORY OF THE WAR.

THE SOUTHERN REBELLION

and the

WAR FOR THE UNION:

A History of the

Rise and Progress of the Rebellion,

and

Consecutive Narrative of Events and Incidents, from the First Stages of the Treason Against the Republic down to the Close of the Conflict

TOGETHER WITH IMPORTANT DOCUMENTS AND EXTRACTS FROM REMARKABLE SPEECHES.

In Weekly Parts, 32 pages, large 8vo, Price 10 Cents.

THE want of an *authentic* and *thorough* History of the Rebellion, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the mazes of the rumors, reports, dispatches, letters and editorials of the daily newspapers, to *precipitate,* from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of *permanent value as well as of present interest,* the publisher has arranged for the issue of the history as above set forth—in a form and at a price which shall render it *acceptable to all.*

This history will tell the STORY AS IT IS, giving a clear, consecutive narrative of the entire movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a mere diary, nor a mere enumeration of dry and naked dates, nor a compilation of slips from newspapers, but will portray in connected and interesting narrative, the revolutionary steps, as well as the measures of the government.

It will carefully digest all evidence—will sift all rumors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to the hasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, earnest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and *not a correct, connected and complete* history. The above publication, afterwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the life of Washington and worthy to be kept for children and grand children as a memorial of the present time.

It will thus prove desirable, available and satisfactory to every citizen, every family, every office, every library: and is given to the public in the full assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Glorious Land.
